Fasteners & Fabricators

Brief Profile...

Link Fasteners & Fabricators (LFF) for the past over two decades, is in the line of manufacturing MS, SS & High Tensile bolts, with hexagon, square, CSK, 'T' head, nuts, studs, in all Grades, as per IS & International standards. We also manufacture: straight-threaded rods for roofing bolts which may be bent to any required shape in 'J' or 'L' etc., pipe supporting 'U' bolts/clamps, tie-rods, sag rods, all types of foundation bolts, rivets and punched and machined washers. We also undertake fabrication & machining works, and specialize in gratings and cable trays.

The unit is located at Visakhapatnam, and has all in house manufacturing facilities for the above products, catering to various Public, Government, & Private establishments.

Production range of our Products..... Brand

1. Product: Bolts - with Hexagon/Square/CSK/'T'/Allen Head.

Size of Range : From 16mm to 42mm x 300 mm length with any required thread pitch.

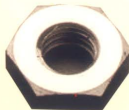

Material : MS, SS, High Tensile, of required Grade IS/BS/ASTM/DIN as per your requirement.

2. Product: Nuts/Lock Nuts - Hexagon/Square/Round

Size of Range : From 16mm to 42mm, of any required thread pitch.

Material : MS, SS, High Tensile, of required Grade IS/BS/ASTM/DIN as per your requirement.

3. Product: Roofing Bolts/Straight threaded Rods - of 'J' or 'L' type etc.

Size of Range : From 6mm to 12mm, in any required length with standard thread pitch.

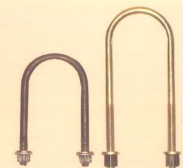

Material : MS, in ready stock, and also in SS, (recommended in coastal areas), against order only.

4. Product: Pipe supporting 'U' Bolts/clamps, Tie Rods/ Sab Rods.

Size of Range : Any size as per your specifications, from NW 15 to NW 500.

Material : MS, or as per your requirements, as per IS standards, with 8 mm & Rod to 32 mm Rod, in plain or galvanized condition.

5. Product : Foundation Bolts/Anchor Bolts etc.

Size of Range : Any size as per your requirements.

Material : MS, or as per your requirements, with painting or galvanized condition.

6. Product : RIVETS.

Size of Range : 12mm to 30mm x 300mm length.

Material : As per IS specifications.

7. Product : Punched/Machined Washers.

Size of Range : 1mm to 16mm thickness as required.

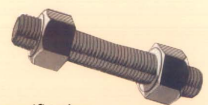

Material : MS, SS, Brass, Copper, Aluminum, as required.

8. Product : STUDS.

Size of Range : 10 mm to 50 mm dia.

Material : As per IS/BS/ASTM/DIN or your specifications.

9. Product : Fish Bolt

Size of Range : As per customer's requirement.

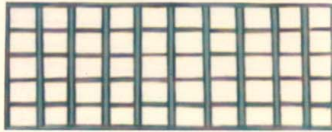

Material : MS, High Tensile of required grade IS/BS.

10. **Product : Grating**

Range & Material :

MS, SS of different sizes as per drawing with hot dip galvanizing or painting as per customer's specification.

11. **Product : Fabrication**

Size of Range : As per drawing.

Material : Columns, Trusses, Fender Frames Mechanical equipment & transformer tank fabrications

12. **Product : Machining**

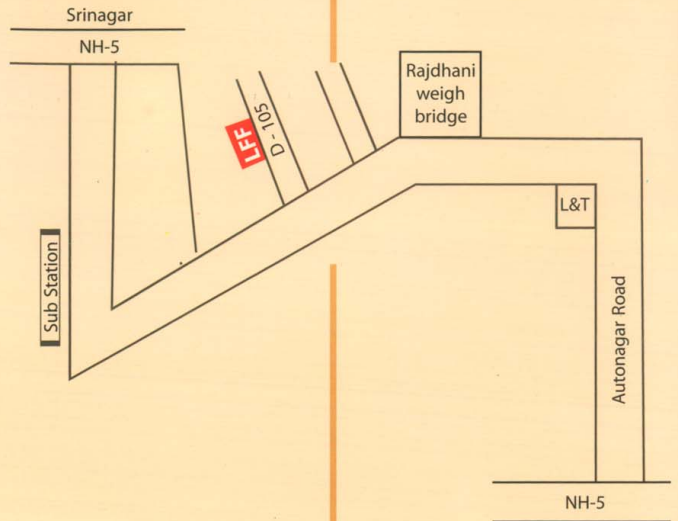

Range & Material : Big diameter fabricated flanges, shaft and sag rods.
